

KHRISANTY GALIH MESTIKASARI

CHEMICAL ANALYST

Jayamukti,Cikarang Pusat | 081243044051 | galih.khrisanty@gmail.com

PROFILE SUMMARY

Goal-oriented Chemical Analyst and Quality Control Specialist with over 6 years of progressive experience across the pharmaceutical and manufacturing industries. Proven expertise in incoming material inspection, analytical method transfer, process validation, and quality issue resolution (MDR and CAPA) while maintaining strict adherence to ISO and GMP standards. Skilled in both conventional testing and advanced instrumental analysis (HPLC, GC, Spectrophotometry, AAS, and ICP-OES). Recognized for driving continuous process optimization (QCC/Genba) and supporting international compliance projects such as Packaging and Packaging Waste Regulation (PPWR). A continuous learner with strong adaptability, proven by successfully transitioning technical expertise from pharmaceutical testing to incoming material inspection and packaging compliance.

WORK EXPERIENCE

Incoming Quality Control Technician July, 2026 - Present

PT DMC Technology Indonesia / Cikarang, Bekasi.

- Perform inspection of incoming material.
- Draft check sheet for routine material and answer material inspection request (FPP).
- Perform judgment of stock material at Warehouse or Production with standard judgment for answer disposition request form (LPJ).
- Draft feedback of NG material for daily report.
- Draft Material Discrepancy Report (MDR) and report debit note for Not Good (NG) material.
- Assist Assistant Manager for monthly MDR report.
- Assist Supervisor in making special acceptance in response to discrepancy material or material needed, ensuring thorough investigation and product integrity.
- Assist Assistant Manager for New Regulation Packaging and Packaging Waste Regulation (PPWR) Project.
- Conducted routine Genba to drive Quality Control Improvement.

Quality Control Analyst July, 2023 – June, 2026

PT Sakafarma Laboratories / Cikarang, Bekasi.

- Perform Qualitative and Quantitative analysis for Semi Finish Good and Stability Product also Raw Material.
- Perform Conventional (Titrimetric method) and Instrumental analysis (Spectrophotometer UV-VIS, HPLC, and ICP-OES) on all types of routine, non-routine and special samples using prepared, modified, or new analytical procedures (such as Validation Process and Analytical Method Transfer).
- Draft and develop study protocols for Quality Control Circle (QCC) initiatives, focusing on process optimization and laboratory efficiency improvements.
- Assist Supervisor in developing Corrective and Preventive Actions (CAPA) in response to Out of Specification (OOS) results, ensuring thorough investigation and product integrity.

Quality Control Analyst December, 2019 – June, 2023
PT Kalbe Farma,Tbk / Cikarang, Bekasi.

- Perform Qualitative and Quantitative analysis for Stability and Semi Finish Good Product.
- Perform Conventional (Gravimetric and Titrimetric method) and Instrumental analysis (AAS, GC, FTIR, and HPLC) on all types of routine, non-routine and special samples using prepared, modified, or new analytical procedures.
- Prepare necessary reagents, chemical solutions, and standards, while performing instrument calibration.
- Interpret analytical data and compile comprehensive reports to support quality decision-making.

Laboratory Analyst (Intern) in Services Laboratory February, 2019 - May, 2019
PT Sucofindo / Cilegon, Banten

- Assesment of water quality using Spectrophotometr UV-VIS, Gravimetric and Titrimetric method.
- Assesment of waste characteristic using Instrumental Analysis (AAS).

SKILLS

- Good Laboratory Practice.
- Good Manufacturing Practice.
- Conventional Analysis (Gravimetric, Titrimetric, and Physical Testing).
- Instrumental Analysis (pH meter, viscometer, densitometer, TOC Analyzer, Spectrophotometer UV-VIS, AAS, GC, FTIR, TLC, HPLC, UPLC, ICP-OES, and Pull Gauge).
- Data Adjustment with Oracle and Chromatography Data System with Empower 3.
- Able to communicate, write, and read in English.
- Microsoft Office and Canva.

EDUCATION

IPB University/ D3, Chemical Analysis 2016 - 2019

Graduated with 3,37 GPA. In general, learn several things such as:

- Calibration
- Conventional and Instrumental Analysis (Spectrometer, HPLC, AAS, GC etc)
- ISO 14001:2015, ISO 9001:2015, ISO 17025:2017

Jayabaya University/ S1, Chemical Engineering 2022 - 2024

Graduated with 3,59 GPA. In general, learn several things such as:

- Chemical Process Design
- Material and Energy Balances
- Environmental and Safety Engineering

CERTIFICATE

- PUBLIC TRAINING PREVENTIVE MAINTENANCE FOR LABORATORY EQUIPMENT (2019)
- INTRODUCTION AND IMPLEMENTATION OF ISO FOR COMPETENCY CERTIFICATION IN THE WORLD OF WORK WITH ISO 14001 AND 17025 (2017)
- HATCHLING CONSERVATION AND RELEASE (2017)

ORGANIZATION

Staff at Chemical Analysis Student Cooperative (KOKIM)	2018
Treasurers at Chemical Analysis Student Cooperative (KOKIM)	2017
Staff at Chemical Analysis Student Cooperative (KOKIM)	2016
Staff at SMA Negeri 3 Magelang Journalism (BUJEL)	2014
Secretaries at SMA Negeri 3 Magelang Red Cross Youth	2014
